

HT Modular contactors

HT Modular contactors can be used to remote control applications in alternative networks:

1. lighting, heating, ventilation, roller blinds, sanitary hot water
2. mechanical ventilation system, etc.
3. load-shedding of non-priority circuit

HT contactors are available in two versions:

Contactors without manually-operated

Contactors with manually-operated

The breadth of the HT contactor range satisfies most application cases.

CT contactors can be combined with auxiliary control, protection and indication functions.
